Are you worried about your professional and academic English skills? Don't wait... step into the E-LAB and work on developing your language abilities!

What is the "E-LAB"?

Starting in the fall semester of 2019, the Engineering Education Research Center is opening the E-LAB (**E**nglish **Lab**oratory) to **all graduate and designated third- and fourth-year undergraduate students** who wish to improve their professional English abilities. The E-LAB is a time outside of class in which individualized instruction will be offered to students to help them improve **professional English skills** such as **exam interviews, technical and academic presentations, proficiency exam strategy, thesis/article composition, or extensive reading support**.

How do I register for the E-LAB?

The E-LAB is an **open time** in which students can come to receive instruction, so there is **no need to register**. You can **come to the EERC office** during the E-LAB hours and the faculty will do their best to accommodate your request. **Please bring any related materials you wish to study with you when you come**. You may also contact an individual faculty member directly if you want to schedule a session.

When is the E-LAB open?

Different EERC faculty members will be available at different times throughout the week. Please refer to the following information:

Faculty	Times*	Targeted Skills
Zachary Robertson zachary@yamaguchi-u.ac.jp	Mondays** 10:20-11:50	Exam Interviews Presentation Skills
Miyagi Sadamitsu miyagis@yamaguchi-u.ac.jp	Fridays 10:20-11:50	Extensive Reading Support Proficiency Exam Strategy
Takashi Uemura t-uemura@yamaguchi-u.ac.jp	By Request	Proficiency Exam Strategy General Instruction

* Please understand that the E-LAB sometimes may not be open due to administrative matters.

** In the event of a school holiday, Monday sessions will be moved to Wednesday at 10:20-11:50.

NOTE: Engineering master students' appointments may be prioritized if timeslots are full.
